1. SCOPE AND DESCRIPTION OF THE PROCUREMENT

1.1. Contracting authority: who is the buyer?

This call for tenders is launched and managed by the European Commission, referred to as the *Contracting authority* for the purposes of this call for tender, assisted by its Directorate-General for Internal Market, Industry, Entrepreneurship and SMEs.

1.2. Subject: what is this call for tenders about?

The subject of this call for tenders is: Review Study on the Recreational Craft Directive 2013/53/EU.

1.3. Lots: is this call for tenders divided into lots?

This call for tenders is not divided into lots.

1.4. Description: what do we want to buy through this call for tenders?

The services that are the subject of this call for tender, including any minimum requirements, are described in detail in the document *Tender Specifications – part 2: Technical specifications* hereafter referred to as *Technical specifications*.

1.5. Place of performance: where will the contract be performed?

The services will be performed at the following locations:

- the contractor's premises

1.6. Nature of the contract: how will the contract be implemented?

The procedure will result in the conclusion of a direct contract.

In direct contracts all the terms governing the provision of the services, supplies or works are defined at the outset. Once signed, they can be implemented directly without any further contract procedures.

👉 Tenderers need to take full account of the provisions of the Draft contract as the latter will define and govern the contractual relationship(s) to be established between the *Contracting authority* and the successful tenderer(s). Special attention is to be paid to the provisions specifying the rights and obligations of the contractor, in particular those on payments, performance of the contract, confidentiality, and checks and audits.

1.7. Volume and value of the contract: how much do we plan to buy?

The estimated total amount of all purchases under this contract is indicated under Heading II.1.5 of the contract notice. The quantities to be purchased over the total duration of the contract are specified in the Technical specifications document (Tender specifications – part 2).

1.8. Duration of the contract: how long do we plan to use the contract?

The contract resulting from the award of this call for tenders will be concluded for at most 12 months. The details of the initial contract duration and possible renewals are set out in Article I.3 of the Draft contract.

1.9. Electronic exchange system: can exchanges under the contract be automated?

For all exchanges with the contractor during the implementation of the contract as well as for future possible subsequent proceedings for the purposes of EDES ([European Union's Early Detection and Exclusion System](#)) the *Contracting authority* may use an electronic exchange system meeting the requirements of Article 148 of [Regulation \(EU, Euratom\) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union](#)¹. At the request of the *Contracting authority* the use of such a system shall become mandatory for the contractor(s) at no additional cost for the *Contracting authority*. Details on specifications, access, terms and conditions of use will be provided in advance.

2. GENERAL INFORMATION ON TENDERING

2.1. Legal basis: what are the rules?

This call for tenders is governed by the provisions of [Regulation \(EU, Euratom\) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union](#) (the Financial Regulation)¹.

The *Contracting authority* has chosen to award the contract resulting from this call for tenders through an open procedure pursuant to Article 164(1) (a) of the Financial Regulation. In an open procedure any interested economic operator (any natural or legal person who offers to supply products, provide services or execute works) may submit a tender.

2.2. Rules on access to procurement: who may submit a tender?

Participation in this call for tenders is open on equal terms to all natural and legal persons coming within the scope of the [Treaties](#), as well as to international organisations.

It is also open to all natural and legal persons established in a third country which has a special agreement with the European Union in the field of public procurement on the conditions laid down in that agreement. Where the Agreement on Government Procurement² concluded within the World Trade Organisation applies, the participation to this call for tenders is open to all natural and legal persons established in the countries that have ratified this Agreement, on the conditions laid down therein.

The rules on access to procurement do not apply to subcontractors. Subcontracting may not be used with the intent to circumvent the rules on access to procurement.

To enable the *Contracting authority* to verify the access, each tenderer must indicate its country of establishment (and in case of joint tender – the country of establishment of each group member) and must present the supporting evidence normally acceptable under the law of that country/-ies. The same document(s) could be used to prove country/-ies of establishment and the delegation(s) of the authorisation to sign as described in **Section 4.3**.

¹ Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council of 18 July 2018 on the financial rules applicable to the general budget of the Union, amending Regulations (EU) No 1296/2013, (EU) No 1301/2013, (EU) No 1303/2013, (EU) No 1304/2013, (EU) No 1309/2013, (EU) No 1316/2013, (EU) No 223/2014, (EU) No 283/2014, and Decision No 541/2014/EU and repealing Regulation (EU, Euratom) No 966/2012 (OJ L 193 of 30.07.2018, p.1).

🔔 *For tenderers established in the United Kingdom:*

Please be aware that after the UK's withdrawal from the EU, the rules of access to EU procurement procedures of economic operators established in third countries will apply to tenderers from the UK depending on the terms of any Withdrawal Agreement. In case such access is not provided by legal provisions in force tenderers from the UK could be rejected from the procurement procedure.

2.3. Registration in the Participant Register: why register?

Any economic operator willing to submit a tender for this call for tenders must be registered in the [Participant Register](#) - an online register of organisations and natural persons participating in European Commission's calls for tenders or proposals (participants).

On registering each participant obtains a Participant Identification Code (PIC, 9-digit number) which acts as its unique identifier in the Participant Register. A participant needs to register only once – the information provided can be further updated or re-used by the participant in other European Commission's calls for tenders or calls for proposals.

At any moment during the procurement procedure the Research Executive Agency Validation Services (hereafter *the EU Validation Services*) may contact the participant and ask for supporting documents on legal existence and status [and financial capacity]. The requests will be made through the register's messaging system to the e-mail address of the participant's contact person indicated in the register. It is the responsibility of the participant to provide a valid e-mail address and to check it regularly.

The documents that may be requested by *the EU Validation Services* are listed in the [EU Grants and Tenders Rules on Legal Entity Validation, LEAR appointment and Financial Capacity assessment](#).

🔔 **Please note that a request for supporting documents by the *EU Validation Services* in no way implies that the tenderer has been successful.**

2.4. Ways to submit a tender: how can economic operators organise themselves to submit a tender?

Economic operators can submit a tender either as a sole tenderer or as a group of tenderers. In either case subcontracting is permitted.

In order to fulfil the selection criteria set out in **Section 3.2** the tenderer can rely on the capacities of subcontractors or other entities (not subcontractors).

The role of each entity involved in a tender (hereafter referred to as *involved entity*) must be clearly specified: sole tenderer, member of a group or Group leader, subcontractor or an entity on

whose capacities the tenderer relies to fulfil the selection criteria³. This applies also where the *involved entities* belong to the same economic group.

2.4.1. Joint tenders

A joint tender is a situation where a tender is submitted by a group (with or without legal form) of economic operators regardless of the link they have between them. The group as a whole is considered a tenderer⁴.

All members of the group assume joint and several liability towards the *Contracting authority* for the performance of the contract as a whole.

Group members must appoint a *Group leader* and a single point of contact authorised to act on their behalf in connection with the submission of the tender and all relevant questions, clarification requests, notifications, etc., that may be received during the evaluation, award and until the contract signature. The model power of attorney attached in **Annex 3** is to be used.

The joint tender must clearly indicate the role and tasks of each member and of the *Group leader* who will act as the *Contracting authority's* contact point for the contract's administrative or financial aspects and operational management. The *Group leader* will have full authority to bind the group and each of its members during contract execution. If the joint tender is successful, the *Contracting authority* shall sign the contract with the Group leader, authorised by the other members to sign the contract on their behalf via power of attorney drawn up in the model attached in **Annex 3**.

Changes in the composition of the group during the procurement procedure (after the submission deadline and before contract signature) shall lead to rejection of the tender except in case of a merger or takeover of a member of the group (universal succession), provided that the new entity has access to procurement (see **Section 2.2**) and is not in an exclusion situation, (see **Section 3.1**).

In any case the selection criteria must be still fulfilled by the group and the terms of the originally submitted tender may not be altered substantially, i.e. all the tasks assigned to the former entity must be taken over by the new entity member of the group, the change must not make the tender non-compliant with the Tender specifications, and the evaluation of award criteria of the originally submitted tender may not be modified.

2.4.2. Subcontracting

Subcontracting is the situation where the contractor enters into legal commitments with other economic operators which will perform part of the contract on its behalf. The contractor retains full liability towards the *Contracting authority* for performance of the contract as a whole.

³ Such an entity is not considered a subcontractor, see Section 2.4.3.

⁴ References to *tenderer* or *tenderers* in this document shall be understood as covering both sole tenderers and groups of economic operators submitting a joint tender.

The following shall not be considered subcontracting:

- a) Use of workers posted to the contractor by another company owned by the same group and established in a Member State (“intra-group posting” as defined by Article 1, 3, (b) of [Directive 96/71/EC concerning the posting of workers in the framework of the provision of services](#)).
- b) Use of workers hired out to the contractor by a temporary employment undertaking or placement agency established in a Member State (“hiring out of workers” as defined by Article 1, 3, (c) of [Directive 96/71/EC concerning the posting of workers in the framework of the provision of services](#)).
- c) Use of workers temporarily transferred to the contractor from an undertaking established outside the territory of a Member State and that belongs to the same group (“intra-corporate transfer” as defined by Article 3, (b) of [Directive 2014/66/EU on the conditions of entry and residence of third-country nationals in the framework of an intra-corporate transfer](#)).
- d) Use of staff without employment contract (“self-employed persons working for the contractor”) to perform substantially the same tasks as the staff with employment contract (“employees”), without the tasks of the self-employed persons being particular well-defined parts of the contract.
- e) Use of suppliers and/or transporters by the contractor, in order to perform the contract at the place of performance, unless the economic activities of the suppliers and/or the transporting services are within the subject of this call for tender (see **Section 1.4**).
- f) Performance of part of the contract by members of an EEIG (European Economic Interest Grouping), when the EEIG is itself a contractor or a group member.

The persons mentioned in points a), b), c) and d) above will be considered as “personnel” of the contractor as defined in the contract.

All contractual tasks may be subcontracted unless the *Technical specifications* expressly reserve the execution of certain critical tasks to the sole tenderer itself, or in case of a joint tender, to a member of the group.

By filling in the form available in **Annex 4**, tenderers are required to give an indication of the proportion of the contract that they intend to subcontract, as well as to identify and describe briefly the envisaged contractual roles/tasks of subcontractors meeting any of these conditions (hereafter referred to as *identified subcontractors*):

- on whose capacities the tenderer relies upon to fulfil the selection criteria as described under **Section 3.2**;
- whose individual share of the contract, known at the time of submission, is above 20 % .

Any such subcontractor must provide the tenderer with a commitment letter drawn up in the model attached in **Annex 5.1** and signed by its authorised representative.

Changes concerning subcontractors identified in the tender (withdrawal/replacement of a subcontractor, additional subcontracting) during the procurement procedure (after the submission deadline and before contract signature) require the prior written approval of the *Contracting authority* subject to the following verifications:

- any new subcontractor is not in an exclusion situation;

- the tenderer still fulfils the selection criteria and the new subcontractor fulfils the selection criteria applicable to it individually, if any;
- the terms of the originally submitted tender are not altered substantially, i.e. all the tasks assigned to the former subcontractor are taken over by another involved entity, the change does not make the tender non-compliant with the Tender specifications, and the evaluation of award criteria of the originally submitted tender is not modified.

Subcontracting to subcontractors identified in a tender that was accepted by the *Contracting authority* and resulted in a signed contract, is considered authorised.

2.4.3. Entities on whose capacities the tenderer relies to fulfil the selection criteria

In order to fulfil the selection criteria a tenderer may also rely on the capacities of other entities, regardless of the legal nature of the links it has with them. It must in that case prove that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment letter in the model attached in *Annex 5.2*, signed by the authorised representative of such an entity, and the supporting evidence that those other entities have the respective resources.

If the contract is awarded to a tenderer intending to rely on another entity to meet the minimum levels of economic and financial capacity, the *Contracting authority* may require the entity to sign the contract or, alternatively, to provide a joint and several first-call financial guarantee for the performance of the contract.

With regard to technical and professional selection criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the works or services for which these capacities are required (i.e. the latter will assume the role of subcontractors).

👉 Relying on the capacities of other entities is only necessary when the capacity of the tenderer is not sufficient to fulfil the required minimum levels of capacity. Abstract commitments that other entities will put resources at the disposal of the tenderer will be disregarded.

3. EVALUATION AND AWARD

The evaluation of the tenders that comply with the submission conditions will consist of the following elements:

- Check if the tenderer has access to procurement (see *Section 2.22*);
- Verification of administrative compliance (if the tender is drawn up in one of the official EU languages and signed by duly authorised representative(-s) of the tenderer);
- Verification of non-exclusion of tenderers on the basis of the exclusion criteria;
- Selection of tenderers on the basis of selection criteria;
- Verification of compliance with the minimum requirements defined in the Tender specifications;
- Evaluation of tenders on the basis of the award criteria.

The *Contracting authority* will evaluate the abovementioned elements in the order that it considers to be the most appropriate. If the evaluation of one or more elements demonstrates that there are grounds for rejection, the tender will be rejected and will not be subjected to further full evaluation. The unsuccessful tenderers will be informed of the ground for rejection without being given feedback on the non-assessed content of their tenders. Only tenderer(s) for whom the verification of all elements did not reveal grounds for rejection can be awarded the contract.

The evaluation will be based on the information and evidence contained in the tenders and, if applicable, on additional information and evidence provided at the request of the *Contracting authority* during the procedure. If any of the declarations or information provided proves to be false, the *Contracting authority* may impose administrative sanctions (exclusion or financial penalties) on the entity providing the false declarations/information.

For the purposes of the evaluation related to exclusion and selection criteria the *Contracting authority* may also refer to publicly available information, in particular evidence that it can access on a national database free of charge.

3.1. Exclusion criteria

The objective of the exclusion criteria is to assess whether the tenderer is in any of the exclusion situations listed in Article 136(1) of the Financial Regulation.

As evidence of non-exclusion each tenderer needs to submit with its tender a Declaration on Honour⁵ in the model available in *Annex 2*.⁶ The declaration must be signed by an authorised representative of the entity providing the declaration.

⁵ The European Single Procurement Document (ESPD) may not be used yet in European Commission's calls for tenders.

⁶ Unless the same declaration has already been submitted for the purposes of another award procedure of the European Commission, the situation has not changed, and the time elapsed since the issuing date of the declaration does not exceed one year.

The initial verification of non-exclusion of tenderers will be done on the basis of the submitted declarations and consultation of the [European Union's Early Detection and Exclusion System](#). The documents mentioned as supporting evidence in the Declaration on Honour need to be provided whenever requested and where this is necessary to ensure the proper conduct of the procedure within a deadline given by the Contracting authority⁷.

Annex 1 specifies which of the *involved entities* participating in a tender need to provide the Declaration on Honour and, when requested by *the Contracting authority*, the supporting evidence.

Please note that a request for evidence in no way implies that the tenderer has been successful.

3.2. Selection criteria

The objective of the selection criteria is to assess whether the tenderer has the legal, regulatory, economic, financial, technical and professional capacity to perform the contract.

The selection criteria for this call for tenders, including the minimum levels of capacity, the basis for assessment and the evidence required, are specified in the following subsections.

Tenders submitted by tenderers not meeting the minimum levels of capacity will be rejected.

When submitting its tender each tenderer shall declare on honour that it fulfils the selection criteria for the call for tender. The model Declaration on Honour available in *Annex 2* shall be used.

The initial assessment of whether a tenderer fulfils the selection criteria will be done on the basis of the submitted declaration(s).

The subsections below specify which selection criteria evidence must be provided with the tender or may be requested later, at any time during the procurement procedure⁸. In any case, to the extent that there is no ground for a waiver, the evidence must be provided, upon request

⁷ The obligation to provide the supporting evidence will be waived in the following situations:

- if the same documents have already been provided in a previous award procedure of the European Commission, have been issued no more than one year before the date of their request by the *Contracting authority* and are still valid at that date;
- if such evidence can be accessed by the *Contracting Authority* on a national database free of charge, in which case the economic operator shall provide the *Contracting authority* with the internet address of the database and, if needed, the necessary identification data to retrieve the document;
- if there is a material impossibility to provide such evidence.

⁸ The obligation to provide the supporting evidence will be waived in the following situations:

- if the same documents have already been provided in a previous award procedure of the European Commission, have been issued no more than one year before the date of their request by the *Contracting authority* and are still valid at that date;
- if such evidence can be accessed by the *Contracting Authority* on a national database free of charge, in which case the economic operator shall provide the *Contracting authority* with the internet address of the database and, if needed, the necessary identification data to retrieve the document.

and within a deadline given by the Contracting authority. The evidence must be provided in accordance with the applicable basis for assessment of each criterion: in case of a consolidated assessment – only by the *involved entities* who contribute to the fulfilment of the criterion, and in case of individual assessment – by each *involved entity* to whom the criterion applies individually.

☞ All of the above specified evidence of technical and professional capacity must be provided with the tender.

☞ Involved entities must not be subject to conflicting interests which may negatively affect the contract performance. Where the *Contracting authority* has established such conflicting interests, it may conclude that the tenderer or an involved entity does not possess the required professional capacity to perform the contract to an appropriate quality standard.

The presence of conflicting interests shall be examined during the evaluation phase based on the statements made through the Declarations on Honour and, where applicable, the commitment letters (*Annex 5.1 and Annex 5.2*).]

By submitting a tender, each legal entity involved therein accepts the possibility of a check being carried out by the Commission on its technical capacities and, if necessary, on its research facilities and quality control measures.

In addition, all tenderers are informed that they may be asked to prove that they are authorised to perform the contract under national law, as evidenced by inclusion in a professional or trade register, by a sworn declaration or certificate, by membership of a specific organisation, by express authorisation, or by entry in the VAT register.

3.3. Compliance with the minimum requirements of the Tender specifications

By submitting a tender a tenderer commits to perform the contract in full compliance with the terms and conditions of the procurement documents for this call for tender. Particular attention is drawn to the minimum requirements specified in the Technical specifications document (Tender specifications – part 2)] and to the fact that tenders must comply with applicable data protection, environmental, social and labour law obligations established by Union law, national legislation, collective agreements or the international environmental, social and labour conventions listed in Annex X to Directive 2014/24/EU.

The minimum requirements shall be observed throughout the entire duration of the contract. Compliance with these requirements is mandatory and cannot be subject to any assumptions, limitations, conditions, or reservations on the part of a tenderer.

☞ **Tenders that are not compliant with the applicable minimum requirements shall be rejected.**

3.4. Award criteria

The objective of the award criteria is to evaluate the tenders with a view to choosing the most economically advantageous tender.

Tenders will be evaluated on the basis of the following award criteria and their weighting:

1. Price

The price considered for evaluation will be the total price of the tender, covering all the requirements set out in the Tender Specifications.

2. Quality

The quality of the tender will be evaluated based on the following criteria:

No	Qualitative award criteria	Weighting (maximum points)
1.	<i>Quality of the proposed methodology</i> <ul style="list-style-type: none"> ▪ Quality of the proposed methodology to collect and analyse data and information, including innovativeness and creativity ▪ Quality of the technical approach to collect and analyse data and information ▪ Quality and originality of the proposed validation and dissemination mechanisms 	40 20 10 10
2.	<i>Organisation of the work and resources</i> <ul style="list-style-type: none"> ▪ Adequacy of the composition of the proposed team to the tasks ▪ Quality of the work programme including realistic timetable based on balanced and consistent method of work ▪ Efficiency of the project management including involvement of senior experts and related allocation of human resources 	40 20 10 10
3.	<i>Quality control measures</i> <ul style="list-style-type: none"> ▪ Quality and efficiency of the proposed project management (including quality control, risk management and reporting) 	20
<i>Total number of points</i>		100

Tenders scoring:

- *less than 60 % in the overall points total, or*
- *less than 50% in the points awarded for a single criterion*

will be excluded from the rest of the assessment procedure

Tenders presenting a total price superior to the maximum amount of EUR 200 000 will be excluded from the rest of the assessment procedure.

3.5. Award (ranking of tenders)

Tenders shall be ranked according to the best price-quality ratio in accordance with the formula below:

Total number of points scored / Total price

👉 The contract shall be awarded to the tender ranked first, which complies with the Tender Specifications and is submitted by a tenderer having access to procurement, not in an exclusion situation and fulfilling with the selection criteria.

4. FORM AND CONTENT OF THE TENDER

4.1. Form of the tender: how to submit the tender?

Tenders are to be submitted via the e-Submission application according to the instructions laid down in the Invitation to tender letter and the [e-Submission Quick Guide](#).

👉 Make sure you prepare and submit your electronic tender in e-Submission early enough to ensure it is received within the deadline specified under Heading IV.2.2 of the contract notice. A tender received after this deadline will be rejected.

4.2. Content of the tender: what documents to submit with the tender?

The documents to be submitted with the tender in e-Submission are listed in *Annex 1*.

The following requirements apply to the technical and financial offer (to be uploaded as Technical tender and Financial tender in e-Submission):

- *Technical offer.*

The technical offer must provide all the information needed to assess the compliance with the Technical specifications document (Tender specifications – part 2) and the award criteria. Tenders deviating from the minimum requirements or not covering all the requirements may be rejected on the basis of non-compliance and not evaluated further.

- *Financial offer.*

A complete financial offer, including the breakdown of the price needs to be uploaded. [For this purpose, the Financial Model in *Annex 6* shall be completed, duly signed and uploaded in e-Submission].

It is the responsibility of each tenderer to ensure that the total amount of the tender inserted in the relevant field of the e-Submission application corresponds to the amount indicated in the uploaded financial offer. In case of discrepancies, only the amount indicated in the financial offer will be taken into account.

The financial offer shall be:

- expressed in euros. Tenderers from countries outside the euro zone have to quote their prices in euro. The price quoted may not be revised in line with exchange rate movements. It is for the tenderer to bear the risks or the benefits deriving from any variation.
- quoted free of all duties, taxes and other charges, i.e. also free of VAT. The tenderer may indicate the amount of VAT but it must be shown separately.

👉 The European Union Institutions are exempt from such charges in the EU under Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Union of 8 April 1965 annexed to the Treaty on the Functioning of the European Union. Exemption is granted to the Commission by the governments of the Member States, either through refunds upon presentation of documentary evidence or by direct exemption.

For those countries where national legislation provides an exemption by means of a reimbursement, the amount of VAT must be shown separately. In case of doubt about the applicable VAT system, it is the tenderer's responsibility to contact his or her national authorities to clarify the way in which the European Union is exempt from VAT.

4.3. Signature policy: how can documents be signed?

Where a document needs to be signed, the signature must be either hand-written, a qualified electronic signature or an advanced electronic signature based on a qualified certificate as defined in [Regulation \(EU\) No 910/2014 on electronic identification and trust services for electronic transactions in the internal market \(the eIDAS Regulation\)](#).

For hand-written signatures see Section 1 of the Invitation to tender.

For electronic signatures see: <https://webgate.ec.europa.eu/fpfis/wikis/x/iwX4Dg>

All documents must be signed by the signatories (when they are individuals) or by their duly authorised representatives.

For the following documents, when signed by representatives, tenderers must provide evidence for the delegation of the authorisation to sign:

- The Tender report;
- The Declaration on Honour of the tenderer (in case of joint tender – the Declarations on Honour of all group members);
- (If applicable – in the case of joint tender) the power(s) of attorney drawn up using the model attached in **Annex 3**).

The delegation of the authorisation to sign on behalf of the signatories (including, in the case of proxy(-ies), the chain of authorisations) must be evidenced by appropriate written evidence (copy of the notice of appointment of the persons authorised to represent the legal entity in signing contracts (together or alone), or a copy of the publication of such appointment if the legislation which applies to signatory requires such publication or a power of attorney). A document that the Contracting authority can access on a national database free of charge does not need to be submitted if the Contracting authority is provided with the exact internet link and, if applicable, the necessary identification data to retrieve the document.

4.4. Confidentiality of tenders: what information and under what conditions can be disclosed?

Once the *Contracting authority* has opened a tender, it becomes its property and shall be treated confidentially, subject to the following:

- For the purposes of evaluating the tender and, if applicable, implementing the contract, performing audits, benchmarking, etc., the *Contracting authority* is entitled to make available (any part of) the tender to its staff and the staff of other Union institutions, agencies and bodies, as well to other persons and entities working for the *Contracting authority* or cooperating with it, including contractors or subcontractors and their staff provided that they are bound by an obligation of confidentiality.

- After the signature of the award decision tenderers whose tenders were received in accordance with the submission modalities, who have access to procurement, who are not found to be in an exclusion situation referred to in Article 136(1) of the FR, who are not rejected under Article 141 of the FR, whose tenders are not found to be incompliant with the procurement documents, and who make a request in writing will be notified of the name of the tenderer to whom the contract is awarded, the characteristics and relative advantages of the successful tender and the price of the offer and/or contract value. The *Contracting authority* may decide to withhold certain information that it assesses as being confidential, in particular where its release would prejudice the legitimate commercial interests of economic operators or might distort fair competition between them. Such information may include, without being limited to, confidential aspects of tenders such as unit prices included in the financial offer, technical or trade secrets⁹.
- The *Contracting authority* may disclose the submitted tender in the context of a request for public access to documents, or in other cases where the applicable law requires its disclosure. Unless there is an overriding public interest in disclosure¹⁰, the *Contracting authority* may refuse to provide full access to the submitted tender, redacting the parts (if any) that contain confidential information, the disclosure of which would undermine the protection of commercial interests of the tenderer, including intellectual property.

☞ The *Contracting authority* will disregard general statements that the whole tender or substantial parts of it contain confidential information. Tenderers need to mark clearly the information they consider confidential and explain why it may not be disclosed. The *Contracting authority* reserves the right to make its own assessment of the confidential nature of any information contained in the tender.

⁹ For the definition of trade secrets please see Article 2 (1) of DIRECTIVE (EU) 2016/943 on the protection of undisclosed know-how and business information (trade secrets) against their unlawful acquisition, use and disclosure.

¹⁰ See Article 4 (2) of the REGULATION (EC) No 1049/2001 regarding public access to European Parliament, Council and Commission documents.
